

Testimoni Ketumbuhan otak pulih selepas mengamalkan Exfuze Seven Plus

Ini adalah testimoni daripada pengguna yang mengalami penyakit ketumbuhan otak. Selepas mengamalkan **Exfuze Seven Plus** kesihatannya telah bertambah baik.

Ini adalah sudut pandang daripada apa yang di tulis di dalam video Youtube tersebut ..

“3 years after surgery and chemotherapy, 8-year old Chao Hui had another relapse of brain tumour. Unfortunately due to a blood clot and the placement of the tumour, he could not undergo surgery to remove it. 1 week after taking eXfuze Seven+, the doctor discharged him from the hospital. Another week following that, the doctor did an MRI and found no tumour in the brain. Chao Hui really loves eXfuze. He drinks it like water! I feel so thankful to eXfuze.”
